Contents of *Forest Ecology and Management*, Volume 217

VOLUME 217, ISSUE 1 **26 SEPTEMBER 2005**

Long-term changes in productivity of eucalypt plantations under different harvest residue and nitrogen management practices: A modelling analysis
M. Corbeels (Wembley, Australia and Montpellier, France), R.E. McMurtrie, D.A. Pepper (Sydney, Australia), D.S. Mendham, T.S. Grove and A.M. O'Connell (Wembley, Australia) 1
Boreal bird community response to jack pine forest succession
L.A. Venier and J.L. Pearce (Sault Ste. Marie, Canada) 19
Returning fire to Ozark Highland forest ecosystems: Effects on advance regeneration
D.C. Dey and G. Hartman (Columbia, MO, USA) 37
The utility of *Trillium* and *Maianthemum* as phyto-indicators of deer impact in northwestern Pennsylvania, USA
C.D. Kirschbaum (Pedro, OH, USA) and B.L. Anacker (Petaluma, CA, USA) 54
Edge type effect on germination of oak tree species in the Highlands of Chiapas, Mexico
F. López-Barrera (Scotland, UK) and A. Newton (Dorset, UK). 67
Nutrient cycling in *Nothofagus pumilio* forests along an altitudinal gradient in Tierra del Fuego, Argentina
J.L. Frangi, M.D. Barrera, L.L. Richter (La Plata, Argentina) and A.E. Lugo (Río Piedras, PR, USA) 80
Rate of transgene spread via long-distance seed dispersal in *Pinus taeda*
C.G. Williams (Durham, NC, USA) and B.H. Davis (Columbia, Canada). 95
Valuation and characterization of the timber species in remnants of the Alto Uruguay River ecosystem, southern Brazil
A.R. Ruschel (Münster, Germany), M.P. Guerra (Florianópolis-SC, Brazil), B.M. Moerschbacher (Münster, Germany) and R.O. Nodari (Florianópolis, Brazil). 103
Microbial biomass and nutrients in soil at the different stages of secondary forest succession in Ziwulin, northwest China
G.-M. Jia, J. Cao, C. Wang and G. Wang (Lanzhou, PR China) 117

Corrigendum

Corrigendum to "Genetic and soil factors associated with variation in visual magnesium deficiency symptoms in *Pinus radiata*" [For. Ecol. Manage. 189 (2004) 263–279]
P.N. Beets, G.R. Oliver, M.O. Kimberley, S.H. Pearce and B. Rodgers (Rotorua, New Zealand). 126

VOLUME 217, ISSUES 2–3 **10 OCTOBER 2005**

Characterizing and mapping forest fire fuels using ASTER imagery and gradient modeling
M.J. Falkowski, P.E. Gessler, P. Morgan, A.T. Hudak and A.M.S. Smith (Moscow, ID, USA) 129
Natural regeneration and environmental relationships of tree species in logging gaps in a Bolivian tropical forest
A. Park (Winnipeg, Canada), M.J. Justiniano (Santa Cruz, Bolivia) and T.S. Fredericksen (Ferrum, VA, USA) 147
Effects of soil compaction and forest floor removal on soil microbial properties and N transformations in a boreal forest long-term soil productivity study
X. Tan, S.X. Chang (Edmonton, Canada) and R. Kabzems (Dawson Creek, Canada) 158
A density-dependent stand-level optimization approach for deriving management prescriptions for interior northwest (USA) landscapes
P. Bettinger (Athens, GA, USA), D. Graetz and J. Sessions (Corvallis, OR, USA) 171

doi:10.1016/S0378-1127(05)00564-5

Quantifying sources of variation in the frequency of fungi associated with spruce beetles: Implications for hypothesis testing and sampling methodology in bark beetle–symbiont relationships
B.H. Aukema (Madison, WI, USA and Victoria, Canada), R.A. Werner (Covallis, OR, USA), K.E. Haberkern, B.L. Illman, M.K. Clayton and K.F. Raffa (Madison, WI, USA) 187
Derivation of compatible crown width equations for some important tree species of Spain
S. Condés (Madrid, Spain) and H. Sterba (Vienna, Austria) 203
Is browsing the major factor of silver fir decline in the Vosges Mountains of France?
P. Heuze, A. Schnitzler (Metz, France) and F. Klein (Bar le Duc, France) 219
Relationship of understory diversity to soil nitrogen, topographic variation, and stand age in an eastern oak forest, USA
C.J. Small (Radford, VA, USA) and B.C. McCarthy (Athens, OH, USA) 229
Effects of regenerating forest cover on soil microbial communities: A case study in hilly red soil region, Southern China
H. Zheng, Z.Y. Ouyang, X.K. Wang, Z.G. Fang, T.Q. Zhao and H. Miao (Beijing, China) 244
Mortality and recovery of eucalypt beetle pest and beneficial arthropod populations after commercial application of the insecticide alpha-cypermethrin
A.D. Loch (Manjimup, Australia and NSW, Australia) 255
Is forest fragmentation driven by the spatial configuration of land quality?. The case of western Oregon
R.J. Alig, D.J. Lewis and J.J. Swenson (Corvallis, OR, USA) 266
Comparing composition and structure in old-growth and harvested (selection and diameter-limit cuts) northern hardwood stands in Quebec
V.A. Angers, C. Messier, M. Beaudet and A. Leduc (Montréal, Canada) 275
Restoration of a forest ecosystem: The effects of vegetation and dispersal capabilities on the reassembly of plant-dwelling arthropods
M.L. Moir (Perth, Australia), K.E.C. Brennan (VIC, Australia), J.M. Koch (Applecross, Australia), J.D. Majer (Perth, Australia) and M.J. Fletcher (NSW, Australia) 294
Relative resistance of willow and poplar biomass production clones across a continuum of herbivorous insect specialization: Univariate and multivariate approaches
E.E. Nordman (Syracuse, NY, USA), D.J. Robison (Raleigh, NC, USA), L.P. Abrahamson and T.A. Volk (Syracuse, NY, USA) 307
Coarse woody debris dynamics in the southern Appalachians as affected by topographic position and anthropogenic disturbance history
C.R. Webster (Houghton, MI, USA) and M.A. Jenkins (Gatlinburg, TN, USA) 319
Changes to headwater stream morphology, habitats and riparian vegetation recorded 15 years after pre-Forest Practices Code forest clearfelling in upland granite terrain, Tasmania, Australia
P.E. Davies, P.D. McIntosh, M. Wapstra, S.E.H. Bunce, L.S.J. Cook, B. French and S.A. Munks (Tasmania, Australia) 331
Changes in woody plant composition of three vegetation types exposed to a similar fire regime for over 46 years
G. Nangendo, A. Stein (Overijssel, The Netherlands), H. ter Steege (Utrecht, The Netherlands) and F. Bongers (Wageningen, The Netherlands) 351
Restoring tropical biodiversity: Leaf traits predict growth and survival of late-successional trees in early-successional environments
C. Martínez-Garza (Chicago, IL, USA), V. Peña, M. Ricker, A. Campos (Veracruz, Mexico) and H.F. Howe (Chicago, IL, USA) 365
